Car Morris 1100 – 1967

Conscious memory 8 years old, my Mother saw me talking to invisible people

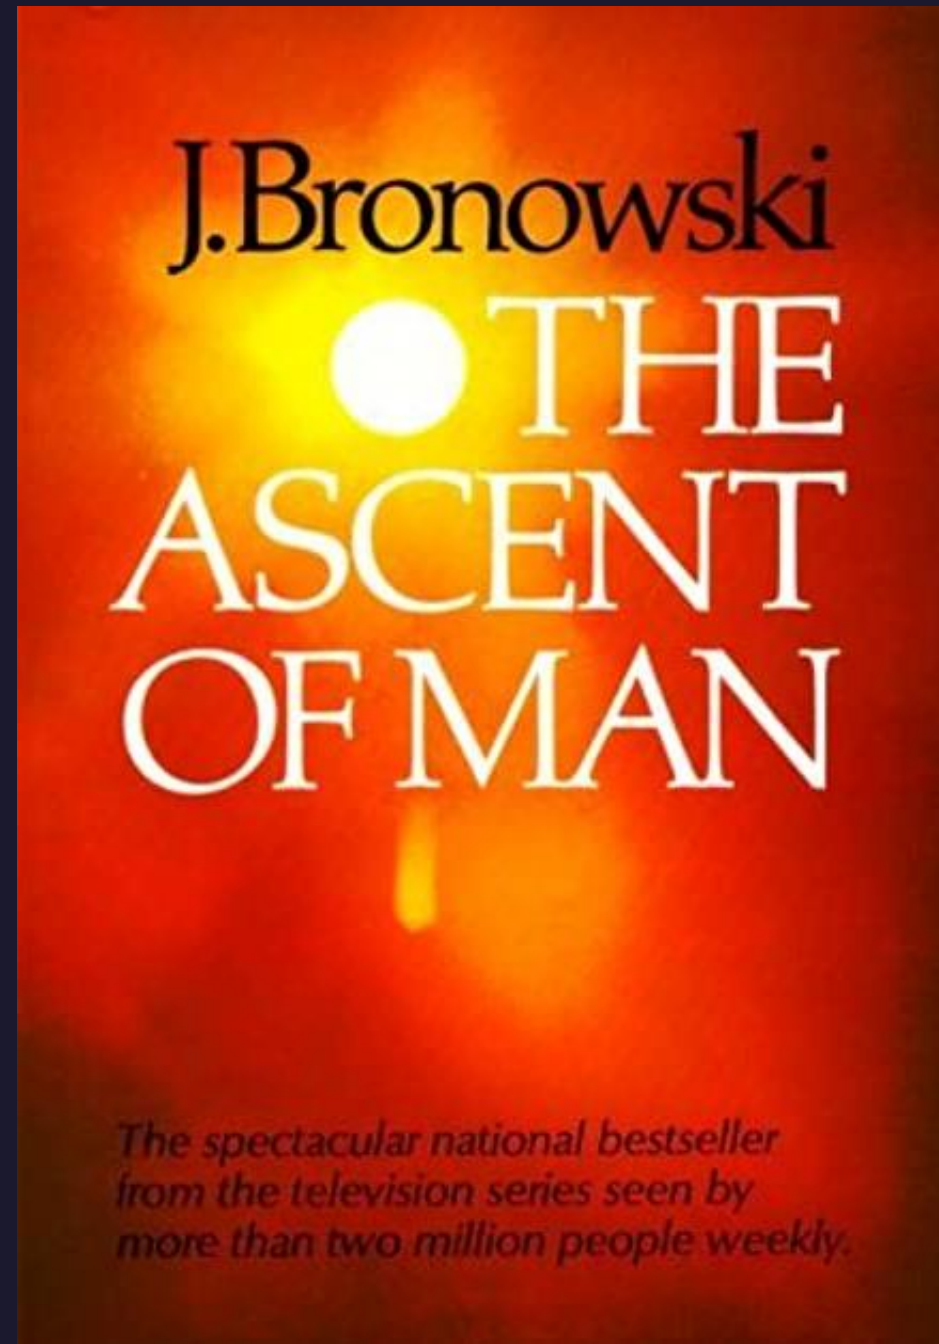

Went to the family doctor and was referred to a leading child psychologist – told the mother he had a wild imagination – prescribed medication – went to the chemist – chemist rang the doctor not sure why heroin,

Mother said not putting that into my son, told him he was very gifted and unique

Family dog as a child had trouble with back

Seen things on television predicting things to family – including the horse racing – asked Dad to watch the tire – Car Morris 1100 – 1967 – small car

Became more aware of seeing things – timing in the world or timing to fit in the world – witnessed the moon landing, Vietnam war, drug usage, racial tensions, and social tensions which I saw through television and media, given a book by my sister called the evolution of man – scientific book, on ABC a documentary called the ascent of man By Doctor Bronowski speaking about the hand of God working through man and the primates using tools and the definition of man that can use tools – primates using a stick to put in the hole to eat ants and the Chinese Monkey dipping potatoes into salt water to season

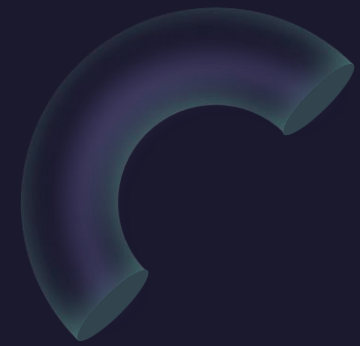

- Movies like star trek and spacey odyssey gave me a deep realization of humanity and its spiritual connection to the universe.
- Images of humans in the future in the stars, while always looking at where we came from as we see the language primate of us in the past.

When I first met Greg I was somewhat of a skeptic, when the reading was over I was no longer a skeptic. In fact, I now know I had achieved far more than accurate reading. Greg had opened my mind and my spiritual journey had begun in earnest.

I have recommended Greg to many, many friends, family, and acquaintances who feel may benefit from his knowledge and ability. All of them have been amazed by his gift and the power of love.

- Mel Manley - Bundaberg Qld

Massive transformation change in consciousness and awareness, having in deep meditation and seeing a mother dolphin and baby jumping out of a wave – very intense emotions of power and love.

At this time I was on my own and the candle flames lit up after a while hand came to me into the room I was a white baby in an embroidered white sack.

My father was in the room with me and I was told I would be reborn into this life.

It was a challenging time of loss, loss of family, and social position but blessed with 2 children.

My charkas came into alignment at that point as I recognized this to be my highest calling.

Psychic Readings

Meditation Group

Visited a meditation group, it was eye-opening – taro readers and people in purple, it was very eye-opening

Since I have been working in the land of spirit and the spirit work – the best I can

Divine Information

The more I have been given over the last 20's –
I feel blessed that I have had this opportunity
in this lifestyle to be given access to greater
messages and divine information open to me

Healing

The greatest reward is when I do healing seeing into the body and psychic surgery, looking into the cells and spinal fluid, this also goes through ancestral healing diabetes and cancers could be caused passed on. Finding the path of the person to be of what they.

I went to have a reading with Greg and had an open mind. So much has happened to me in these last six months that I could not envisage, though Greg's ability to see my life was accurate, they came true in such a short time. Greg could not have guessed about my life if he was a 'cold' reader or a sham.

Greg is good. I would even put him up there with the late Doris Stokes of England, she is/was the ultimate medium in my opinion.

- Pat Reid - New Zealand

I do not do this alone as I am connected to spirit; they are working with me and I have given names of those who have passed on with me. This also involves me doing remote healing, I see into the vibration of people through their numbers anoscope - similar to the movie contact – they had a machine that looked at the vibration.

What I have learned in the years we are not alone, and never had been alone, the world is currently at a tipping point, ever since world war 2 our spiritual

Things are changing we will be entering into the world that has been predicted in many religions that we are moving into a golden age. We are entering a world of miracles.

The light of humanity will rise above everything, we have gobekle tepe predates the given history, pyramids under Cuba, pyramids in China, South Africa, and Alaska.

Going through the advancement of technology in simplest form.
